

Marlin Maddux

Marlin Maddux, 1938 graduate of Greensburg High School. The son of Otis and Jesse Maddux. Married to Lorena Pitts. Had two sons who also both graduated from Greensburg High School as well (Duane 1967 and Garry 1974).

Marlin Maddux served his community in all walks of life.

In the military-World War II veteran serving in the European theater and earning a Purple Heart and Bronze Star. Also serving 23 years in Indiana National Guard, retiring as Commanding Officer of the second battalion (Shelbyville).

In Politics-active member of local Republican Party and proudly serving as mayor of Greensburg from 1960-1964.

In his community-serving as past president/ member of The Rotary Club, Jaycees, New Horizons and Decatur County Historical Society.

In his church-longtime member of First Baptist Church where he served as Sunday School teacher, deacon and trustee.

In business-owner and operator of Maddux Moving, Storage and Auction Co. Now in its 72nd year of business and home to one of the longest running weekly consignment auctions in the state of Indiana. Inducted in 1987 to the Indiana Auctioneer Hall of Fame.

The family of Marlin Maddux thanks Dr. Hunter, the Hall of Fame committee and Greensburg Community Schools for this prestigious honor. We are very appreciative of this recognition.

John Ziegler

John M. Ziegler is a scientist and author born sometime in 1952-1953 in Greensburg, Indiana. Growing up in Greensburg, John had many interests, including sports, agriculture, and science. He greatly enjoyed his summers at his grandfather's farms in Sandusky and the fishing breaks he had with him. John attended Greensburg High School while also doing research at Indiana University. He graduated from Greensburg High School in 1970 and attended both Wabash College and the University of Illinois to further his education.

While in college, he received his B.A. in Chemistry from Wabash College and his Ph.D in Organic Chemistry at Illinois University. After his college years, John moved to Stamford, Connecticut to be a researcher at the American Cyanamid Corp. While in Connecticut, he was a key factor in the

manufacturing of a low costing, non-toxic pesticide. He then moved to Albuquerque, New Mexico to be a part of the Sandia National Laboratories and work with silicon-based polymers. As of now, he had invented 30 U.S and foreign patents and has written over 70 scientific papers. Currently, he resides in Rio Rancho, New Mexico, which is near Albuquerque, and makes it a point to go back to Greensburg, Indiana biannually.
